4.3 IT INFRASTRUCTURE

4.3.1 Institution frequently updates its IT facilities and provides sufficient bandwidth for internet connection

PSN Engineering College recognizes the vital role of information technology which involves in the College missions' and related administrative activities as well as the importance in an academic environment for protecting information in all forms. As more information is used and shared in a digital format by students, faculty and staff, both within and outside the College, an increased effort must be made to protect the information and the technology resources that support it. Increased protection of our information and Information Technology Resources to assure the usability and availability of those resources is the primary purpose of this Policy. The Policy also addresses privacy and usage of those who access college information technology resources.

Introduction

i. Academic Freedom

Academic freedom is a fundamental Institution value. This Policy will be administered in a manner that supports theprinciple of academic freedom.

ii. Supportive Academic Environment

PSN Engineering college seeks to provide a supportive working, living and learning environment. To accomplish this, we actively look for ways to encourage, exchange and discourse, to bring together faculty, students, and staff, and to build a community that encourages all of its members to succeed and grow.

iii Accountability for College Resources

All members of the College community have responsibility to protect College resources for which they have access or custodianship. Members of the college community are accountable for their access to and use of College resources.

iv. Personal Use and Privacy

The Institution recognizes that students, faculty and staff have reasonable expectations of privacy in their uses of Information Technology Resources. However, rights to privacy are constrained in the College environment because (1)

Melathediyoor, Palayamkottai Taluk, Tirunelveli District, Pin - 627 152. (Approved by AICTE and Affiliated to Anna University) An ISO 9001 : 2015 Certified Institution Website : www.psnec.ac.in Email : principal@psnec.ac.in \$ 04634-279078, 279079 Fax : 04634-279078

The Institution owns and supplies these Information Technology Resources to its faculty, staff and students fundamentally for the purpose of accomplishing its academic missions (2) The Information Technology Resources contains many closely shared environments and resources and the rights of other users must be taken into account and (3) legal and ethical restrictions apply.

Individuals may have access to unconstrained use through private or commercial systems located at their residence or elsewhere. Resources or systems owned and maintained by the College for the benefit of the academic community are primarily intended for use for the College, not personal or business communications.

v. Relationship to Division or Departmental IT Policies

Divisions and Departments within the College may adopt additional information technology policies that are specific to their operations, provided that such requirements are consistent with this Policy and the department or division shall provide a copy of more specific policies to the Professor in charge of IT Policy.

Scope

i. People to Whom Policy Applies

This Policy applies to everyone who accesses College Information Technology Resources, whether attached directly to the college or not, whether on campus or from remote locations, including but not limited to students, faculty, staff, contractors, consultants, temporary employees, guests, and volunteers. By accessing College Information Technology Resources, the user agrees to comply with this Policy.

Students: All the students are required to submit and internet access request form to the CSG through the faculty advisor.Faculty/Staff: Faculty and staff members have to submit their duly signed request to the CSG for getting the access.

ii. Definition of Information Technology Resources

Information Technology Resources for purposes of this Policy include, but are not limited to, College-owned networks, wireless networks, servers, internet connections, terminals, applications, and computers. Information Technology Resources include those owned by the Institution and those used by the institution, including but not limited to information recorded on all types of electronic media, computer hardware and software, paper, computer networks, and Mobile Phones.

Melathediyoor, Palayamkottai Taluk, Tirunelveli District, Pin - 627 152. (Approved by AICTE and Affiliated to Anna University) An ISO 9001 : 2015 Certified Institution Website : www.psnec.ac.in Email : principal@psnec.ac.in \$ 04634-279078, 279079 Fax : 04634-279078

Access Restriction for Personal Communication

The Institution will not, without user permission, monitor, review or otherwise access Personal Communications (defined below) sent or received (e.g., email), created or stored on Information Technology Resources, except pursuant to the Access Procedures Section II, which permits access when determined reasonable. The reasons for which access to Personal Communications can be granted include, but not are limited to, the following circumstances:

- > To investigate or prevent a violation of law or Institution Policy;
- To minimize or stop computer activity that interferes with the College network or other computer operations.

i. Access Procedure

Institution Communication

> Institution Communications may be accessed for the purpose of carrying out College works by individuals with authority to deal with communications related to their subject matter without prior permission from the College official. The purpose of the access is critical to the determination that prior permission from the College official is not necessary for access.

➤ It is understood in the environment of Information Technology Resources that there may not always be a physical separation of electronic records between College work related transactions and personal communications. If material is found during a legitimate search for College Communications that indicates a potential violation in Personal Communications of College policy, including this Policy, or illegal use, the individual(s) involved in the search should halt the search, secure the relevant Information Technology Resources and seek permission to. The access rights for the college IT resources and access credentials of the ERP and other communications should not be shared with any individual or group who are not connected with the institution.

Technology Management and Audit

The Institution may use mechanisms to manage the information technology operations, including spam and virus detection and elimination; limitation of network volume or blockage of access to specify file types or sites; or restriction of access to sites that present a security risk to the college systems or experience high volumes of network traffic unrelated to

the academic missions of the institution. Use of such mechanisms must be approved by head of computer support group.

ii. Data Classification and Access Restrictions

Access to information owned by the College is generally broadly consistent with the concept of academic freedom and theopen nature of the institution. However, there are types of information where access must be restricted and caution in handling and storing the information is necessary.

Access and Use:

Legally Restricted Information must be stored, used and disclosed to others only on a need to know basis to permit the individual faculty or staff member toperform their College functions for which the information was acquired and for which it is maintained. Access to legally restricted information must be carefully safeguarded.

Protection of legally restricted Information from disclosure to or unauthorized access by anyone who does not have a genuine need to access the information to comply with requirements of the law or to carry on necessary college functions is a primary responsibility of the custodian.

Security and Privacy

- Users should be engaging safe computing practices by establishing appropriate access restrictions for their account and computing devices, guarding their password and changing them regularly.
- Users should note that their uses of college connectivity are not completely private. As part of the security measures, all the activities are logged and monitored by CSG.
- The College, in its discretion may disclose the results of any such general or individual monitoring including the contents and records of communication to the appropriate authorities or government agencies and may use those results for disciplinary procedures.

Prohibited Downloads

The following downloads are specifically not allowed on computers unless approved in writing by CSG.

> Any peer to peer file sharing application:

Such applications may be used to utilize bandwidth inappropriately. Further, these applications contain third-party applications - called adware or spyware, that collect information about a user's Web surfing habits, change system settings, or place unwanted advertising on the local computer.

> Any third party personal antivirus or firewall:

Since adequate security has already been provided for all machines via predefined firewall rules, third party firewalls may interfere with these rules thus endangering the network. Use of Proxy servers, private fire wall, tunnelling software, connectivity sharing software should be avoided.

Storage and Protection:

Legally Restricted Information in paper form must be stored in locked or otherwise secured areas when not in active use. Legally Restricted Information in electronic form must be stored in secure designated Offices or, if authorized to be stored elsewhere, only in encrypted (or similarly protected) form. It must not be stored on desktop, laptop or other portable devices or media without encryption or similar protection. Contact CSG Teams for advice and assistance.

Transmission:

Reports and communications should not include Legally Restricted Information unless essential to perform the function for which the communication is made. Transmission of Legally Restricted Data must be by secure methods. If Legally Restricted Data is transmitted by e-mail or other electronic transmission, it must be encrypted or otherwise adequately protected.

Melathediyoor, Palayamkottai Taluk, Tirunelveli District, Pin - 627 152. (Approved by AICTE and Affiliated to Anna University) An ISO 9001 : 2015 Certified Institution Website : www.psnec.ac.in Email : principal@psnec.ac.in © 04634-279078, 279079 Fax : 04634-279078

Wi-Fi Policy

College Wi-Fi is available in the whole campus and hostels. Wifi will not be available at hostels during class hours.

✤ The access to college Wifi restricted to registered users. The one who wants to avail the Wi-Fi facility, has to submit an application in the prescribed format. The access college Wifi is restricted to the registered device only. Usage of college Wifi in an unregistered device by spoofing/tethering will be treated as violation of this policy.

• Even if the access ID is different, the registered Wifi user is the sole responsible person for all the communications originated from the registered device.

Much information necessary for people to perform their work at the Institution is properly available to others at the College, but is not appropriate to be known by the general public. Information for Internal Use Only is protected behind electronic firewalls or in private paper files in secured offices and is not accessible by the public at large. This is appropriate and will continue. Common sense and good practice dictate that this information remains accessible on a need to know basis by employees and sometimes by students, but not accessible by the media or outsiders. Examples are: budgets, strategic or unit business plans, proposals, contracts, many policies and procedures, correspondence, grant related documents, financial records, etc.

ii. Public Information

Public information is information that is available to all members of the Institution community and may be madeavailable to the general public. The College reserves the right to control the content and format of Public information.

Software upgradation

All Software are periodically upgraded including Firewall. Softwares purchased from the Academic Year 2022- 2023 have upgradation of latest version for the next three years. Also upgrade the computer RAM 4GB To 8GB

Enforcement

Users found violating this policy may be denied to access to the PSNEC network for a minimum period of six months and may be subject to other penalties and disciplinary action. The PSNEC network admin may suspend, block or restrict the access to an account, when it reasonably appears necessary to do so in order to protect the security, integrity or functionality of the network. Suspected violations of applicable laws may be referred to appropriate law enforcement agencies. Alleged violations will be handled through PSNEC disciplinary procedures applicable to the user.

Disclaimer

✤ PSNEC reserves the right, without notice, to limit or restrict individual's use and to inspect copy, remove or otherwise alter any data, file or system which may undermine the authorized use of any computing facility or which is used in violation of rules and policies.

◆ PSNEC also reserves the right periodically to examine any system and other usage and account activity history as necessary to protect its computing facilities.

✤ PSNEC disclaims any responsibility for loss of data or inference with files resulting from its effort to maintain security and privacy.

◆ PSNEC reserves the right to amend these policies at any time without prior notice and to take necessary action to comply with applicable laws.

APPENDICS

Campus Network Services Use Agreement

By marking the application for IP address designation/Net Access ID (user account)/email account, to act as per the IT strategies and rules of PSNEC. A Net Access ID is the blend of a username and a secret key by which you get sufficiently close to College PC frameworks, administrations, and the internet.

Melathediyoor, Palayamkottai Taluk, Tirunelveli District, Pin - 627 152. (Approved by AICTE and Affiliated to Anna University) An ISO 9001 : 2015 Certified Institution Website : www.psnec.ac.in Email : principal@psnec.ac.in \$04634-279078, 279079 Fax : 04634-279078

A. Accounts and Passwords

The User of a Net Access ID ensures that the Net Access ID won't be imparted to any other person. What's more, the Net Access ID may be utilized basically for instructive/official purposes. The User ensures that the Net Access ID will forever have a secret word. The User won't share the secret word or Net Access ID with anybody
